ABOUT US

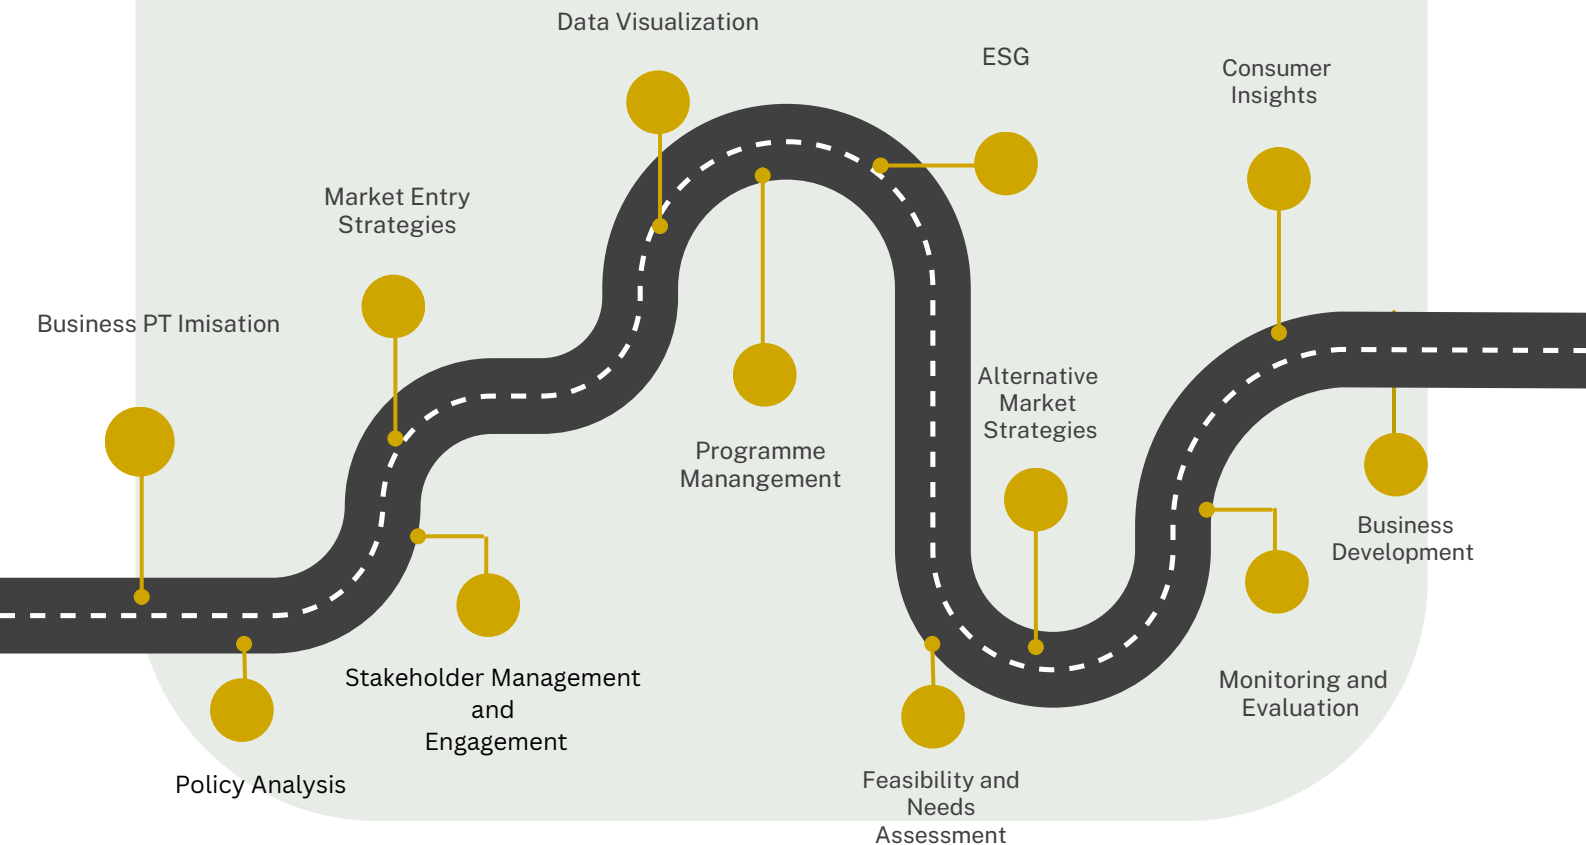

Zibula Advisory is an **Advisory firm** that specialises in **social and economical development**. We pride ourselves with building solutions that are innovative and ensure sustainable impact. Zibula Advisory is a **BBBEE Level 1** supplier.

HOW WE WORK

We have assembled **a network of experienced and talented professionals** who passionately share our intent to drive **social and economic change**. Our processes enable us to effectively respond to our clients needs.

ed on a daily basis to 35 schools across South Africa. However, to date the tangible impact of the initiative has been observed, but not adequately measured.

HOW WE WORK

OUR DIFFERENTIATOR

WHAT DIFFERENTIATES ZIBULA'S SOLUTION?

A multi-lingual team who are steeped in Economic and Social Development across industry and across the geography

The team displays a balance between theory/ academia, best practice and lived experience.

Dedicated team of senior consultants with specialized and complementary skills adequate to bring the project to successful completion.

We have a good understanding of the South African landscape including township and peri-urban landscape and environment. We understand how to manage social dynamics, needs and stakeholders to achieve impact goals

OUR EXPERIENCE

- Developed a Theory of Change and designed a Monitoring and Evaluation (M&E) framework for a multinational FMCG company's CSR and CSI programmes in education, the circular economy (waste and water management).
- Performed an organisational and programmatic assessment using a change model and developed a diagnostic framework used to assess the organisation's scalability readiness for a JSE listed multimedia company with an NPC that facilitates youth employment related programme.
- Formulated social and environmental impact indicators and developed a reporting dashboard for an agricultural development fund with the aim to build a sustainable food system by facilitating local employment opportunities and increasing local procurement and supplier diversity.
- Performed an implementation and outcome evaluation of CSI programmes for a JSE listed Real Estate Investment Trust (REIT) which introduced technology to previously disadvantaged schools by providing them with computers and apps to support the South African Curriculum (CAPS) and equipping teachers with the necessary skills in incorporating technology in classrooms.
- Designed and conducted a workshop for a fellowship program for an NGO dedicated to empowering women. A number of topics were covered in the program, including business model design, funding diversification, and impact measurement.
- Designed and conducted a series of workshops that provided an international fellowship program for MBA students (IE, Spain) with the dynamics a considerations for SA township economies. Zibula also provides mentorship to the fellows for their MBA consulting cases.
